alarm, elevator, internet, video cameras, separate entrance, high ceilings, shop window, central heating

## Additional information

Porto Franco is a MULTIFUNCTIONAL CENTER under construction, which is a new landmark of Tallinn and a new level of business premises. The concept of the office center, shopping center and hotel was created by the international architectural firm Chapman Taylor London, and the architecture of the building by Arhitektuuribüro Kadarik, Tüür. Architects. architects Mihkel Tüür and Ott Kadarik.

Today, the Porto Franco I building has been completed, where the Citybox Tallinn hotel, cafe and A-class COMMERCIAL AND OFFICE PREMISES are located. Porto Franco II and III buildings are under construction.

IN 2022, PORTO FRANCO III BUILDING will be completed with attractive COMMERCIAL AND OFFICE PREMISES with high ceilings, which will be built according to the wishes and needs of the tenant. There are various sizes of rental apartments available. The commercial space is a rental space with a ceiling of 5.5 meters, which the future Tenant can build out on his own terms.

On the attached plan, the area is indicated as follows:

102a: 119.8 m2 + possible summer terrace 102a-1 - 100m2

Porto Franco has:

- underground parking garage for tenants and guests of the building
- the possibility of renting warehouses
- cafe, restaurant
- hotel with 272 rooms
- 2 conference rooms

Porto Franco is the new heart of Tallinn and it is located in a development area that is becoming a new modern city center. The finished REIDI TEE connects the Lasnamäe, Pirita and Viimsi areas with North Tallinn, Old Town and Kristiine districts, thus directing car traffic away from the city center. Reid road directs the traffic flow to Ahtri street, making Porto Franco easily accessible from all directions of the capital. The development plans of the Tallinn city center envisage the establishment of a NEW PUBLIC TRANSPORT NETWORK, improving the transport connection between the port area and city districts, and CONNECTING THE PORT AREA TO THE AIRPORT BY TRAM ROAD. The two stops of the new tramway will be located right next to Porto Franco.

Porto Franco is being built to LEED Gold standards. LEED is the most widely recognized and used green building program internationally, the house built according to its standards meets HIGH REQUIREMENTS IN REGARDS TO ENVIRONMENTAL SAVINGNESS, ENERGY USE, CONSTRUCTION AND BUILDING MATERIALS.
