The new 7-story apartment building at Tiiru Street 3 in the Valgre residential area is located by the sea, between the tennis hall and Hestia Hotel Strand, near the coastal meadows. The south and west-facing balconies of the apartments offer the opportunity to enjoy stunning views and spend evenings watching the sunset. The exterior design of the building also reflects Pärnu's image as a summer city – white exterior walls are complemented by spacious sea-facing balconies with glass railings, adding an airy and light feel. The house will be completed as early as April 2025.

The building will feature 2- to 4-room apartments, each with a sea-view balcony or terrace. The apartments come equipped with underfloor heating, individual ventilation systems, floor-to-ceiling windows in sea-facing units, and a "Premium" interior finish as standard. All apartments are pre-wired for air conditioning. The building includes an elevator and video surveillance. Storage units are available on the ground floor (for an additional fee), and there is a private enclosed parking lot in the courtyard (parking spaces available for an additional fee, with electrical connections ready). The building also features a children's playground and direct access to the seaside promenade and bike path. The building's architects are Hanno Grossschmidt, Tomomi Hayashi, and Siim Endrikson from the HGA architectural firm.

The sea-facing 2-room guest apartment No. 2 (54.7 m² + terrace 13.7 m²) is located on the ground floor and offers direct views of the sea and coastal meadows. The apartment includes a spacious living room-kitchen area (28.9 m²), a bedroom (15.6 m²), and a shower room/WC (5.7 m², with the possibility to add a sauna). The rooms feature floor-to-ceiling sliding windows, providing access to the large south-facing terrace from both rooms. The comfortable indoor climate is ensured by underfloor heating and a heat-recovery ventilation system. Air conditioning can be added for an additional fee.
