The new 7-story apartment building at Tiiru Street 3 in the Valgre residential area is located by the sea, between the tennis hall and Hestia Hotel Strand, on the edge of coastal meadows. The south and west-facing balconies of the apartments offer stunning views and the perfect setting to enjoy evenings with the sunset. The building's exterior design reflects Pärnu's image as a summer city—white facades with large, sea-facing balconies that create a sense of lightness and openness. The house will be completed as early as April 2025.

The building will feature 2- to 4-room apartments, each with a sea-view balcony or terrace. The apartments are equipped with underfloor heating, individual ventilation systems, and floor-to-ceiling windows in the sea-facing units. They also come with "Premium" interior finishes as standard. All apartments are pre-wired for air conditioning. The building includes an elevator and video surveillance. On the ground floor, there are storage units available (for an additional fee), a private enclosed parking lot in the courtyard (parking spaces available for an additional fee, with electrical connections ready), a children's playground, and direct access to the seaside promenade and bike path. The building's architects are Hanno Grossschmidt, Tomomi Hayashi, and Siim Endrikson from the HGA architectural firm.

3-room apartment No. 11 (66.5 m² + balcony 9 m²) is located on the 2nd floor. The apartment has a through-floor layout with windows facing three directions and a balcony oriented to the west, perfect for enjoying the evening sun. The apartment includes a living room (23.5 m²), two bedrooms (15.4 m² and 13.6 m²), a shower room/WC (5 m²), and a hallway (8.9 m²). A sauna can be added upon request. The comfortable indoor climate is ensured by underfloor heating and a heat-recovery ventilation system, with the option to install air conditioning for an additional fee.
