balconi, electricity, elevator, locked staircase, parquet, secured door, shower, water, video cameras, open kitchen, storage room, central heating, water floor

Additional information

In the new Vanasadam Quarter, being developed at the mouth of the river and Vallikäär in the heart of Pärnu, three apartment buildings with public spaces are being constructed, to which a pier for small boats will be added in the future. The Vanasadam Quarter has been designed with the modern person in mind, someone who values durable materials, a comfortable and cohesive living environment, a good location, and proximity to essential services, in addition to modern architecture.

The first building to be completed in Vanasadam Quarter is the one closest to the sea, located at Kalda Street 4, which will be finished in the first quarter of 2025. The apartments in the building range from 1 to 5 rooms, and most have a balcony, French balcony, or terrace. The ground floor of the building will also feature guest apartments with private entrances, directly connected to the functional urban space. Parking spaces and storage units (both available at an additional cost) are conveniently located on the ground floor, and the building has three elevators. The most exclusive apartments in the building offer unique views of the Pärnu River, marinas, sunsets, and Pärnu's historic bastion area.

The 2-room guest apartment No. 16 (51.3 m² + balcony 3.9 m²) is located on the second floor of the building, facing the Pärnu River. The rooms (both with access to the balcony) are 26.3 m² (living room-kitchen) and 9.7 m² in size, along with a large shower room/WC (7 m²) and a hallway (8.5 m²). The comfortable indoor climate in the apartment is ensured by water-based underfloor heating and heat recovery ventilation. Cooling can be added to the apartment for an additional fee.

For more information about Vanasadam Quarter, please visit the website
