Additional data

balconi, electricity, elevator, locked staircase, parquet, secured door, shower, water, video cameras, open kitchen, storage room, central heating, water floor

Additional information

In the new Vanasadama Quarter, being developed at the confluence of Pärnu city center, the river, and Vallikäär, three apartment buildings with public spaces are being built. In the future, a quay for small boats will also be added. The Vanasadama Quarter is designed with the modern person in mind, valuing not only contemporary architecture but also durable materials, a comfortable and integrated living environment, a prime location, and proximity to essential services.

The first building to be completed in 2025 will be the most seaside-facing apartment building at Kalda Street 4. The apartments range from 1 to 5 rooms, with most featuring either a balcony, a French balcony, or a terrace. On the ground floor, there are commercial spaces with separate entrances, directly connected to the functional urban environment. Parking spaces and storage rooms (available for an additional fee) are conveniently located on the ground floor, and the building has three elevators. The most exclusive apartments offer unique views of the Pärnu River, the marinas, sunsets, and Pärnu's historic bastion area.

Studio apartment No. 30 (25.1 m²) is located on the 3rd floor, with a view towards the city center bridge. The apartment features a 16.8 m² living room-kitchen with a French balcony, a 4 m² hallway, and a 4.3 m² bathroom/WC, making it a perfect retreat for summer vacations. The apartment's comfortable indoor climate is ensured by water underfloor heating and heat recovery ventilation, with an optional cooling system available for an additional fee.

For more information about the Vanasadama Quarter, visit the website <http://www.vanasadamakvartal.ee>.
