Additional information

For sale: a functional guesthouse located in Pärnu's beach area, situated on a quieter side street not far from the swimming beach. The accommodation facility, which includes 12 rooms and apartments (up to 42 beds), has a long operational history and an established client base. Everything is conveniently in place to continue the hospitality business – along with the property, the buyer will receive all the necessary business information, complete furnishings, inventory, and contracts.

The plot, adjacent to Pardi and Kanali streets, features a main building with 8 rooms and common areas, as well as a courtyard building with 4 spacious apartment-style rooms. The fully renovated main building (total area 264.4 m²) includes, on the first floor, a reception area, dining room, guest rooms, and a sauna. The second floor houses additional guest rooms and offers access to a spacious rooftop terrace. The rooms are decorated in various styles and color schemes to cater to different tastes, highlighting, for example, romance or a sense of history through interior design details. To ensure a pleasant indoor climate, the rooms are equipped with air conditioning. Depending on the size and furnishings, the rooms with en-suite bathrooms can accommodate 2-3 guests.

The courtyard building (total area 214.4 m²) houses 4 apartments with terraces, three of which are spread across two floors. On the first floor of the apartments, there is a spacious living room, kitchen, and sauna, while the second floor features a sleeping area that can accommodate up to four people. The studio-type apartment has beds for 4 guests, while the others can accommodate up to 6. The kitchenettes are fully equipped – stove, microwave, dishwasher, kettle, refrigerator, cutlery, etc. There is a shared barbecue area in the courtyard of the building.

The buildings are connected to district heating, with all necessary utility connections at sufficient capacity. To manage the guesthouse, an automated check-in and check-out system with video surveillance is in place, which helps save on personnel costs and enables the business to be managed remotely. Parking is available on the property for up to 12 cars.
