Additional information

Three apartment buildings with public spaces will be built in the new Vanasadama Quarter, located at the heart of Pärnu, near the river and the mouth of Vallikäär. In the future, a quay for small boats will also be added. The Vanasadama Quarter is designed for the modern person who values not only contemporary architecture but also durable materials and a convenient, integrated living environment in a great location.

The first building to be completed in the Vanasadama Quarter is the seaside apartment house at Kald St. 4, scheduled for completion in 2025. The building will feature 1–5-room apartments, most of which include either a balcony, French balcony, or terrace. On the ground floor, there are guest apartments and commercial spaces with separate entrances that are directly connected to the functional urban space.

Studio guest apartment no. ÄR08 is located on the 1st floor of the building, on the riverside, with a view of the Central Bridge. The apartment features an 18.3 m² living room with kitchen, a 6.9 m² shower room/WC, and a 7.6 m² loft-style sleeping area on the upper level. The steps in front of the apartment can be used as a small terrace. The guest apartment can also serve as a commercial space.

Note: VAT (27,500 €) is added to the price of the guest apartment. Total price including VAT: 152,500 €.
